## Projects

### JiveBird
https://www.jivebird.com/

As a developer, I was part of the team that contributed to JiveBird.com, a fully digital E-Greetings and E-Gift company. Our team used a tech stack that included React-js, Next-js, Django, Django Rest Framework, and PostgreSQL. We worked on developing and maintaining various features of the website, including the user interface, payment gateway integration, and third-party API integrations. Overall, it was a great opportunity to utilize my skills as a full-stack developer and contribute to a meaningful project

### Onzeauto
https://www.onzeauto.com/

As a frontend developer using Next.js and Redux, I contributed to the development of Onzeauto.com, a platform for car-sharing in the Netherlands. My responsibilities included implementing responsive designs, managing state using Redux, and optimizing performance. I collaborated with a team of developers to create a seamless user experience, ensuring that the website was accessible and user-friendly.

### IndiaBookofRecords
https://application.indiabookofrecords.in/

IndiaBookofRecords is a record-breaking platform where users can submit and view various types of records. As a frontend developer, I worked on the website's user interface using HTML, CSS, and Node.js. I implemented various features, such as user authentication, record submission, and record search, to enhance the user experience.

### Face-Detection-API
https://github.com/ajay0023130/face-ditection-api

I developed a Python Django-based Face Detection API for Radiant Infonet Pvt Ltd that mark Faces of images and videos. The API was built using Django, Django Rest Framework, and OpenCV.

Ml Based ChatBot

https://github.com/ajay0023130/chatBot

This is a machine learning-based chatbot project created for Radiant Infonet Pvt Ltd. It involves building an ML model using TensorFlow to create a conversational agent that can understand natural language and respond accordingly. The chatbot can be integrated into various applications and websites to enhance customer support and engagement.

## Basic Details

Language-English ,Hindi
